## COUNTY GETS \$97,500 FOR ACP PRACTICES

Adams County has been allotted \$97,500 to share the cost of Agricultural Conservation Program practices established on county farms during the coming year. J. Glenn Miller, office manager for the county Agricultural Stabilization and Conservation Committee office, announced today.

Miller said that the funds will be allocated on a "first come, first served" basis, as has been the custom for a number of years. The funds are expended to assist farmers who adopt conservation programs ranging from spreading lime to establishing of contour farming.

Farmers may call at the ASC office in the Adams Electric Co. building, rear of N. Stratton St., to obtain information concerning the practices for which federal funds are available and to make application for such "cost-sharing."

Miller said that farmers interested in improving their farms can obtain "a great deal" of assistance from various U. S. Department of Agriculture agencies. State and federal agricultural experiment stations continuously study new methods and in turn provide information to the extension service which provides the information to the farmer.

Technical assistance is provided by the Soil Conservation and Forest Service for ACP practices that require such assistance. Miller said. He also noted that the Farm Credit Administration can provide loans for carrying out conservation programs.

## REW SPEAKER CITES VALUE OF MASS MEDIA

"If we put ourselves in the place of the producers of the mass media, we can see their difficulties. Most of them find it necessary to present religion as an over-arching concern, a sort of glue that holds American life together. When this happens we usually see mere sanctifying of the American way of life rather than a religious interruption of that way."

Dr. Martin E. Marty thus analyzed the prevalent relationship between religion in America and the nation's mass media in the second of three Religious Emphasis Week lectures at Gettysburg College, Tuesday.

"Or," he said, "the media communicators avoid all controversial subject matter, as if to say, 'Religion is important. Faith is important. But the substance or content of the hope is not. Nothing matters as long as you are sincere.'"

"Decrees Issued Message" "If there is any one message that Americans do not need to hear in a time of vague religiousness, that is it," Dr. Marty declared.

"The best the media can now hope to do is to provide 'equal time' to various particular religious emphases and to report on what is significant in the religious world. Any other approach tends to sentimentalize religion or to make it too general to be any good," he affirmed.

America is by nature a religious type of nation, and we ask the mass media to reflect that religiousness. But ordinarily the mass media must present a circumscribed reflection of religion in America to satisfy the demands of all the diverse people who want religion portrayed, Dr. Marty said.

"The religious fact of life in America since its earliest days in pluralism. But no force has done as much to push us together as the mass media," he observed.

## Try To Evict Belfry Owls

Persons strolling by the engine house these winter nights are likely to hear a strange clamor coming from within and about the top of the building. There are not "bats in the belfry," as tradition would have it. They are barn owls in the belfry, as the owls would have it.

The owls, an enthusiastic bunch, have drawn complaints from E. Middle St. residents because of their noisy manner of "speaking." Today, farmers, armed with boards, hammers, nails and an okay from District Game Protector Paul Glenny served an eviction notice.

Glenny explained that the owls, protected under the law, will have the various entrances to their lofty home boarded shut. It is hoped the owls can be taken alive rather than being destroyed in desperation. If the "fine feathered friends" are captured, they will be donated to a zoo, probably the one at Hershey, according to Glenny.

The game protector said there are indications the owls have been at home in the belfry for some time. Those matching wits with the owls are certain there are at least two, but it is suspected that there are others.

There was no apparent response from the owls this afternoon as the privacy was invaded but one question remains: What if the owls should resort to their fabled wisdom?

John H. Rudisill, 33, Gettysburg R. 3, who was arrested by Hanover police Friday following a chase his intention of pleading guilty in York County Court on charges of turning off his lights to avoid detection and driving while under the influence of intoxicants. He posted \$500 bail on each count before Justice of the Peace Dayne E. Garrett for the April term of court.

**Building Project Not Inevitable**  
Cost of the new county home is to be borne by a "kitty" of approximately \$175,000 saved by the commissioners over the last several years and which is not included in the current budget. The remainder of the cost will come from about \$125,000 from federal funds and possibly \$200,000 or more from sale of the county home farm land.

The institution district budget calls for expenditure of \$11,707.33 for general administration, including the \$2,400 salary for each commissioner—\$800 for each commissioner, \$4,307.33 clerks' salaries, \$3,500 for tax collectors, \$1,100 for the solicitor, \$300 for traveling expenses and \$100 miscellaneous.

County home operation is estimated to cost \$100,000 per year.

# EX-COUNTIAN'S HOME BURNS

Carlisle area firemen battled a stubborn four-and-a-half-hour fire Monday night in the brick ranch-type home of Thomas R. Yemm on Circle Drive in Country Club Acres there.

No one was injured, but damage was extensive.

An unidentified neighbor telephoned firemen at 6 p.m. that he saw smoke billowing from the house. At 10:30 p.m. the Union Fire Co. reported the fire was out.

No one was home at the time. Yemm, a salesman for C. H. Masland & Co., was in Cincinnati, Ohio, on business. His wife had taken their children for a visit with her parents, Mr. and Mrs. Orman Robert, Orrtanna. Mrs. Yemm is the former Anna May Robert.

# 'HOLDUP' WAS A MISTAKE

NEW YORK (AP) — Esther Breslau says no one was more surprised than she was to find that the withdrawal slip she presented a bank teller Tuesday said: "Give me all the money. I have a bomb."

She said she had picked up some withdrawal slips from the savings bank in Brooklyn Monday and took them home to her husband. He filled out one of the slips to withdraw \$50 from his account.

Mrs. Breslau, 57, handed the slip to a teller, Giselle Her-making, who noticed the note on the back of the slip and quietly set off an alarm.

Mrs. Breslau wondered why so many policemen were entering the bank. Then she found out.

Police and the FBI questioned her 5½ hours and found, first, that she had no bomb; second, that she insisted she only wanted \$50 her husband had sent her to get; and third, that she apparently had not noticed the note and had no idea how it got there.

When her husband, Martin, got home from work as a garment cutter, he was as surprised as Mrs. Breslau.

The Breslaus got their \$50 and went home.

# TEEN-AGERS HARDEST HIT BY ASIAN FLU

By FRANK CAREY  
BETHESDA, Md. (AP)—Asian flu strikes heaviest among teenagers, possibly because of the crowded setup of modern American schools, a Public Health Service researcher said today.

Dr. Alexander D. Langmuir of the service's Communicable Disease Center, Atlanta, Ga., said that was the American experience noted during the epidemic of 1957-1958.

In report prepared for the First International Conference on Asian Flu—attended by scientists from five foreign countries including the Soviet Union—Dr. Langmuir summarized studies of the 1957 outbreak.

# Peak in H.S.

"Incidence of disease was relatively low in pre-school children," he said. "It rose in grammar school children and reached a peak among those of high school ages and young adults. Then the rates dropped abruptly among older adults."

"The modern American system of education, particularly the crowded consolidated high school which is now almost universal throughout the country, and its system of school bus transportation, probably permits a maximum of transmission among teenage groups," he added.

# Farmer John Gives Away Estate At 90

GALLATIN, Mo. (AP) — "I've hated the government ever since I was old enough to know anything," says farmer John William Knight.

That's why Knight, a 90-year-old bachelor, is giving his estate to 12 nieces and nephews, four churches and the Salvation Army. So far he says he has passed out \$15,000. He still has \$45,000 to go.

Knight, who lives on a 160-acre farm near this northwest Missouri town, got the money from the sale of 300 acres of farmland.

# Never Held With Lawyers

"So I knew I had this big lump of money," he explained. "I knew I wasn't going to need it except some to live on and I didn't want to die and leave it in one piece and have taxes get most of it. I never held with lawyers and wills. Decided I'd make sure it goes where I want."

Knight traces his antipathy for tax collectors to his young manhood.

"I was raised in a log house on a ridge about three miles west of here. First farm I bought was the old Blake place. Drove \$200 worth of cattle and hogs up there to make the first payment."

# 'Clean Heart And Clear Head'

"Right off they wanted \$45 taxes on the place and it still mortgaged. It don't hardly seem right a man has to pay taxes on a farm he don't even own. So I've hated the government ever since I was old enough to know anything."

Knight said he expects to give away the remainder of his estate next year—"if I live to get the chance."

"All I want left when I die is a clean heart and clear head."

The victim was Fred K. Kern, 25, apparently had difficulty crossing the bridge. Accounts from witnesses said Kern's automobile continually bumped the guard rail. He got out of the car, stepped onto a snowbank and tumbled into the creek just after lighting a cigarette, said state police.

# STOCKS AT NEW LOW

NEW YORK (AP) — The stock market was pounded down to the lowest level since December 1959 in heavy trading early this afternoon.

The ticker tape was late as the average penetrated the 1959 low and prices gave ground on a broad front.

Brokers said the action might be the long-anticipated "selling climax" of the relentless 1960 decline. The opinion was borne out, tentatively, at least, by a firming above the lows with the tape still three minutes behind transactions on the floor.

**Bigler Senior To Represent State At Show**  
Miss Dorothy Coddington, of Biglerville, has been chosen to represent Pennsylvania at the National Cherry Week Celebration to be held in Chicago for one week, beginning today. Miss Coddington will leave Thursday for Chicago.

Miss Coddington, a daughter of Mr. and Mrs. Allan B. Coddington, and a member of the senior class at Biglerville high school, was chosen by a Biglerville committee, the choice of a representative for the state having been left to Adams county as the leading cherry canning county in Pennsylvania.

**Long Siege Of Sneezing By County Women Broken**  
The siege of sneezing which gripped Mrs. Edgar Harmon, of Orrtanna, mother of seven children, more than five weeks ago has been broken.

During the long siege Mrs. Harmon has lost 20 pounds of weight.

The siege was broken by physicians at Johns Hopkins hospital, Baltimore, where the afflicted woman was taken last week for observation after treatment here proved ineffective.

The sneezing stopped as suddenly as it began, according to an Associated Press dispatch from Baltimore today. Corrective treatment will be continued at Baltimore in an effort to determine what caused the sneezing attack.

**Once Famed Katalysine Spring To Be Revived; Plan Bottling Plant**  
Clyde D. Berger, of Pikesville, Maryland, announced today that he plans to begin bottling water from the Katalysine spring on the former Springs Hotel property, west of Gettysburg, about April 1.

Berger, who is married to the former Miss Mary Kohler, formerly of Gettysburg, said the bottling works will be located on the Lincoln highway, with the water pumped there from the spring.

Water from the spring was last bottled in 1913, Berger added. In 1917 the once famous Springs hotel, erected originally as the nucleus for a mineral spa, burned to the ground.

When or by whom the nature of the mineral water was first discovered is unknown. The oldest residents of the community say it was the subject of tradition in their younger days. The first white man who appears to have used the water for its medicinal purposes was the Rev. Charles C. McClean, whose home was near the spring.

**Firemen Vote \$2,000 To Buy Fire Apparatus**  
By resolution passed without a dissenting vote, the Gettysburg fire company appropriated \$2,000 from its apparatus fund to help pay for a new piece of fire fighting equipment at the regular February meeting Wednesday evening.

In the resolution the firemen

## Today's Talk

**THE JOY OF ANTICIPATION**  
The thrill that comes to travelers on their first trip to Europe, and other continents, is highlighted by the thrill that the days offer before the actual trip is under way. It's the anticipation that people revel in. It's the anticipation to which people look forward with the keenest interest. Their eyes see everything. A new world is opened up before their interest-seeking eyes. Then there is another thrill — the happy home coming — and no place like home — anywhere! The wise traveler will keep his eyes centered on the unusual and unadventured. This adds to the surprise spots, all the time spent in making notes and plenty of thinking at the show places. What a wonderful world, and how it teems with interests, for that idea of freedom in a happy land is never forgotten by the thinking person. We should dwell on these anticipations, for they plant themselves like seeds in good earth. All our days when away from home.

Signs are often dramatic and eye openers, but the simple, homely things attract most, for the emotions are alive then. I am one of those who believe in seeing one's own country first. It's nearest to the heart. Many of us gain a new home in our heart after visiting such a place as Hawaii, however.

Happy traveling!

## Just Folks

**TOUGH**  
Gee! Ain't it tough when your heart says: "Give!"  
And your purse replies: "You're through!"

When your heart remembers them all who live  
And do such a lot for you?  
When your heart would scatter your gifts abroad,  
Was there ever a feeling worse  
Than to want to do things that you can't afford  
Because of a slender purse?

Gee! What a spendthrift I'm sure I'd be  
If only my heart could do  
In return for the things that are done for me,  
One half that it wishes to.

But we sit and sigh, my heart and I,  
And say that it's surely tough  
When the purse gives out when we go to buy,  
Before we've done half enough.

## CHANGE PLAN ON SEEDLINGS

HARRISBURG (AP)—The state will experiment this year with shipping its tree seedlings to central distribution points in its own trucks rather than direct to the customer by rail.

Secretary Maurice K. Goddard of the Forests and Waters Department reported today the initial experiment will be made in Tioga and Bradford counties.

It will mean a \$1 increase in price for customers of state nurseries in those two counties to cover the state's shipping cost.

Seedlings normally sell for \$6 per 1,000. That price will hold for customers elsewhere, who will continue to pay the shipping cost to the commercial hauler.

David S. Nace, head of the department's Nurseries Section, said the experiment is an effort to avoid loss of trees through delays in rail shipping.

## BELL REPORTS BILLION PLUS 1959 INCOME

NEW YORK (AP)—The annual report of the Bell Telephone System, the nation's largest corporation, shows it reached new highs in gross revenue, net earnings and total assets in 1959.

The report, issued Monday by Frederick R. Kappel, president of the American Telephone and Telegraph Co., said Bell system net income rose to \$1,148,769,000 last year from \$981,463,000 in 1958.

General Motors Corp. is the only other U. S. company ever to report a year's earnings of more than one billion dollars. Its net income in 1955 was \$1,189,477,000. GM has not reached that level since.

**\$20 Billion Assets**  
The 1959 report covering the Bell System includes AT&T, its principal telephone subsidiaries consolidated, together with the proportionate interest in net earnings of the Western Electric Co. and other subsidiaries.

Among the 1959 Bell System achievements reported were these:

1. Record total assets of \$20,807,001,000—the highest ever shown by any company. The previous high was \$19,493,951,000 at the end of 1958.
2. A record number of shareholders—1,737,000—more than any company ever had.
3. At the end of 1959 there were 37,944,104 telephones in operation, compared with 34,684,342 a year earlier. This was the greatest addition of telephones in any year to date.

**New Constructions**  
4. New construction outlays of \$2,250,000,000 in 1959. The Bell System's capital expenditures topped two billion dollars for the fourth consecutive year. This was the first time that any American company ever spent so much in that length of time.

5. Bell's total operating revenues rose to \$7,392,997,000 from \$6,771,403,000 in 1958. Operating expenses rose to \$4,479,495,000 from \$4,231,868,000 in 1958.

The Bell System's 1959 net income of \$1,148,769,000 resulted in net income of \$1,113,152,000, equal to \$5.22 a share, applicable to stock of AT&T, the parent company. In 1958 the income was \$4.67 a share on a smaller average number of shares. The remaining \$55,617,000 net income in 1959 was applicable to minority interests.

The Bell System report said the average daily number of telephone calls increased from 196,688,000 in 1958 to 208,042,000 in 1959.

**"A BROKEN HEART"**

This is the tale of a broken heart... and how it came to be... drifting aimlessly about... on life's stormy sea... it happened that it was in love... with another heart... and it seemed impossible... that they would ever part... for years the heart sang tender songs... and smiled away each tear... when love is true there's faith and hope... to banish every fear... then suddenly the world stood still... hearts went their separate ways... something that took years to build... went up in a blaze... now memories are all that's left... just ruins piled up high... a broken heart alone and blue... that cannot even cry.

## Have No Clues In Disappearance

GOLDEN, Colo. (AP)—Millionaire Adolph Coors III disappeared one week ago Tuesday.

Sheriff Art Wermuth and the FBI gave the familiar comment again that they still are investigating the mysterious case. Publicly, at least, there have been no contacts by possible kidnappers.

Coors, 44, is the chairman of the Adolph Coors Co., a brewery and ceramics products plant here. He vanished last Tuesday morning while driving to work from his foothills home. His vehicle, with two blood smears on the front seat, was found abandoned on a narrow wooden bridge.

## Queen Moves To Maternity Suite

LONDON (AP)—Queen Elizabeth II moved Tuesday night to the maternity suite arranged for her in Buckingham Palace after her doctors told her to expect her third baby at any minute.

In what may have been their final prenatal examination, the doctors found the 33-year-old monarch in the best of health. They anticipated no complications.

The Queen moved from her own apartment to the ground-floor suite, at the back of the palace, which has been converted into a royal maternity ward.

It was not expected that Elizabeth would leave the palace today.

## Police Car Is Wrecked By Youth

WINDSOR, ONT. (AP)—Two patrolmen in suburban Sandwich East stopped a car carrying three teen-agers because the youths looked suspicious.

They put one in their own patrol car, then returned to question the others.

The lone youth sped off in the patrol car, smashed into a parked vehicle and escaped on foot. While the two patrolmen were chasing their own car on foot the other two youths drove off.

Damage to the patrol car: \$500.

## AG SCHOOL AT PSU THIRD

Undergraduate enrollment in the College of Agriculture at the Pennsylvania State University is the third highest of any land-grant university in the nation, it was reported recently.

The College of Agriculture had 1,573 undergraduate students and 294 graduate students in the fall of 1959, 106 more students than the year before, according to Russell B. Dickerson, director of resident education in agriculture. This enrollment was exceeded only by Iowa State University and Cornell.

Speaking at the annual conference of the Agricultural Extension Service, Dr. Dickerson said the College of Agriculture has increased its scholarship program to \$22,000 available from 45 sources. These scholarships are set up as memorials, business and industry gifts, and awards.

"Our students make good use of scholarship opportunities," Dr. Dickerson pointed out. "Last year we awarded \$18,515 in scholarships to 90 students during the annual Ag Hill Party."

The Penn State dean added that \$5,000 is available in 1960 for student loans. These loan funds come from various foundations and from private grants.

He commented that salaries for agricultural graduates are good and "the demand for graduates is greater than the supply—about 2 to 1." Salaries for 1959 Penn State agricultural graduates ranged from \$3,600 to \$5,100.

## Radio Station To Buy All Records

PITTSBURGH (AP)—A Pittsburgh radio station will, from now on, buy all records used on its programs instead of accepting them as gifts.

Officials of radio station KDKA, a unit of Westinghouse Broadcasting Co., announced the new policy Monday.

"We are in negotiations for the purchase of records from all the major companies," said Lester R. Rawlins, KDKA general manager. "We want to feel that we own everything we broadcast."

KDKA officials said only a small percentage of the approximately 200 records received each week from recording companies are played on the air.

## SEOL, South Korea (AP)

Tough old Syngman Rhee has been assured of re-election to his fourth term as president of South Korea by the death of his chief opponent.

Without a change in election laws, the opposition Democratic party cannot nominate a replacement for Chough Pyong-ok, 65, who died suddenly Monday in Washington, where he had been recuperating from abdominal surgery. The election is March 15.

## Says Democrats Use Double Talk

HARRISBURG (AP)—The Republican National Committee's assistant chairman accuses the Democratic-controlled Congress of cutting over five billion dollars from vital defense projects in the past five years.

Without elaborating, Mrs. Clare B. Williams said the cutbacks were made in "major national security items" recommended by President Eisenhower. She spoke Monday before the Civic Club of Harrisburg.

Mrs. Williams claimed Democrats were engaging in double talk in the growing controversy over national defense.

## REACTIONS TO SCOTT CHOICE

PHILADELPHIA (AP)—Vice President Richard Nixon's presidential campaign manager says the public and political record of Sen. Hugh Scott (R-Pa.) establishes him as a potential contender for the vice presidential nomination.

However, Fred C. Scribner Jr., undersecretary of the treasury, added Monday in an interview that Scott was one of several senators who stood out as contenders for the nomination. He did not list the others.

Scribner, who was here to address a meeting of the Republican Women of Pennsylvania, also assailed Democratic Chairman Paul Butler for charging the Republican presidential race was "rigged."

## LOSES TO VIRUS

DETROIT (AP)—Detroiters saw a slenderized Vice President Richard M. Nixon Monday. He was 15 pounds lighter than during his last appearance in Michigan nearly 17 months ago.

His wife, Pat, told newsmen he lost about 15 pounds early in 1959 after "he picked up a bug of some sort" during an African tour. His health is fine, Mrs. Nixon said. It's just that he never regained those 15 pounds. She said he now weighs about 170.

**Seating Of Trotting Officials Is Urged**

HARRISBURG (AP) — Seating of Dale Fetrow of Carlisle and U. Steele of Bloomsburg on the U.S. Trotting Assn. Board of Directors has been recommended by a three-man committee named to look into a disputed election.

The committee made its recommendation Tuesday night after throwing out 41 votes cast in a USTA District 8 election Jan. 30 in Trenton, N.J.

Elimination of the votes, which had been challenged, moved Steele rather than an 11-day schedule with the first games on Friday instead of Thursday.

However, no one likes the idea that has been frozen into the mat arena rink or the mushy ice that is created when the warm sun thaws it.

into second place behind Petrov and dropped Brinton Holloway, Harrington, Del., into third place and apparently out of the running.

The trotting group's board of directors will make the final decision at its meeting March 12 in Los Angeles.

The hockey meeting affirmed the schedule that had been originally agreed on at a similar meeting in New York Feb. 8. The hockey teams will play in groups of three with the Soviet Union, Czechoslovakia, and Canada seeded in each group.

# Argentina, Home Of 50-Ct. Steak, Two Crops Of Grain, Will Be Ike's Second Stop

(Editor's Note: This is the second of four articles on the four nations President Eisenhower will visit on his South America tour.)

By BEN BASSETT  
AP Foreign News Editor

BUENOS AIRES, Argentina (AP)—Leaving Brazil next week, President Eisenhower will fly to a country which has twice as many cattle as people. Argentina is the place you get a tender filet mignon for 50 cents, where the aroma from meat broilers has become a sort of national perfume—the U.S. backyard barbecue multiplied manifold.

Between the Andes Mountains and the Atlantic, Argentina runs north-south for 2,500 miles to form South America's largest country after Brazil. It is a country where a vast middle class dominates the population of 20 millions, where no one is likely to go hungry.

Two-fifths Pasture  
This is an under-populated nation.

Two-fifths of it are in pampas—pasture lands which all year long, winter and summer, nourish the cattle and sheep which supply a staple diet and yield a rich bounty for export. Two crops of grain a year are not uncommon in this fertile soil and benign climate. There are riches in minerals, too.

Even so, problems abound. "This is a rich country but we are poor," says a man you meet on a ranch.

He is unlikely to have electricity unless it is home-generated from a windmill or gasoline engine. He has no telephone and few of the conveniences that mark the average American farm home. He is in about the same status as a poor farmer in the American Midwest 40-50 years ago.

Most Live In Cities  
Five of every eight Argentines live in cities. Most white collar workers have two jobs to make ends meet. The man who works six hours a day in office "A" goes over his "B" job for six hours more before he goes home on a

## Truman Forsees Victory In Fall

MIAMI, Fla. (AP) — Former President Harry S. Truman, always a vigorous Democratic campaigner, sees a party victory in 1960 if the Republicans nominate Richard M. Nixon.

"Anyone we nominate can beat the hell out of him," Truman cheerily told newsmen.

Truman met reporters when he arrived in Miami Tuesday to see a play starring his daughter, Margaret, and relax in Miami and Key West.

Asked whom he'd prefer as Democratic nominee, Truman said "I have no preference at this time and I will support the nominee."

There are too many chances that Communists and Peron supporters will use Eisenhower's presence to demonstrate their feelings.

Eisenhower will spend only 21 hours in Buenos Aires and a few hours in Mar del Plata, a beach resort 280 miles south. The major part of his stay will be in Bariloche, a remote spot where he and Frondizi can talk in calm mountain air.

Whatever the welcome, Eisenhower will find here a spirit of drive underlying a blend of agriculture and commerce that makes the nation largely self-sufficient and able to offer mutual opportunities for trade and friendship between the United States and Argentina.

NEXT: Chile.

## SAYS STATE RANKS HIGH ON AIR SAFETY

By DICK WEEGHMAN  
HARRISBURG (AP) — Pennsylvania's aviation safety facilities rank among the best in the country, the executive director of the State Aeronautics Commission said today.

"We stand pretty close to the top of all of the states in having safety facilities in the way of both navigation aids and instrument landing aids," added John W. MacFarlane.

All of the metropolitan airports serving Pennsylvania, with the exception of the Harrisburg-York state Airport, have a full instrument landing system (ILS) with approach lights, he said.

Available To Harrisburg  
MacFarlane listed the metropolitan fields as Philadelphia International, Allentown, Bethlehem-Easton, Reading, Wilkes-Barre-Scranton, Erie, Greater Pittsburgh and Allegheny County Airports.

He said that although the equipment has been allocated by the Federal Aviation Agency for installation of a complete ILS at Harrisburg, the commonwealth has not yet obtained the necessary land rights and easements.

ILS, with a system of radio beams, allows the pilot to accurately guide himself by a special

instrument down to the runway through bad weather.  
Need ILS

MacFarlane listed seven other airports that accommodate both commercial airlines and general aviation. All of these should be equipped with ILS and have been programmed for it in 1960 through 1962, he said.

They include the Bradford-McKean County, Williamsport, Lancaster, Blair County, Johnstown, Black Moshannon, near Philipsburg, and Chess Lambertson, Airport near Franklin.

The Williamsport Airport was the scene of an Allegheny Airlines crash last December that took the lives of 26 of 27 persons aboard.

More Beacons  
The field was not equipped with either a tower or ILS when the plane rammed into a mountain while maneuvering for a landing in a snowstorm. The tower was commissioned shortly afterward.

MacFarlane said runways at each of those airports except Chess Lambertson last year were extended to 5,000 feet to meet FAA requirements for ILS installation. Chess Lambertson is programmed for either a runway extension or a new airport, he said.

Concerning Pennsylvania's navigation facilities, MacFarlane said "We have more OMNI ranges (high frequency radio beacons that tell a pilot which radial he is on) installed in Pennsylvania than any other state."

Distilling attar of roses is a flourishing industry in Bulgaria.

## Bandit Rattled By Disobedience

NEW CASTLE, Pa. (AP) — Bank officials in nearby Bessmer apparently have the answer to thwarting bandits.

Three gunmen entered the Bessmer branch of the Peoples Bank of Lawrence County Tuesday but fled empty-handed when a teller, Ann Rocco stood behind the bullet-proof glass in her cage and did nothing.

The nervous gunmen stood in the bank for a few minutes, then ran out the door to an auto.

Three other tellers stood behind bullet-proof cages and watched the gunmen while another employee phoned police.

## ENDS 2-DAY TESTIMONY

By DAIL TORGERSON  
LOS ANGELES (AP) — Carol Tregoff ended her two-day ordeal under cross-examination erect and composed, unshaken in her denial that she and her surgeon lover murdered his wife.

She told of being in love—she didn't echo the prosecutor's suggestion of "madly"—with Dr. R. Bernard Finch. The state says they murdered his wife, Barbara Jean, last July 18.

Carole told of fleeing and hiding in bushes when Finch and his wife struggled over a gun he says

## JOE LOUIS TAX CASE IS CLOSED

WASHINGTON (AP)—Although the case of Joe Louis is still open, the Internal Revenue Service does not expect to get any more tax money from the former heavyweight champion.

An IRS aide summed up the government's attitude Tuesday: "We're not chasing Joe. We're not going to make life miserable for him."

The aide explained that is what Commissioner D. A. Latham meant when he told a closed session of a House Appropriations subcommittee that "the Joe Louis case has finally been disposed of."

went off accidentally. "I was frozen. I was scared. I was completely horrified. It was like a nightmare."

To Jury Next Week  
Finch studied her as she testified. Sometimes, his hands folded, his lips moving silently, the handsome society doctor stared at the ceiling.

After her testimony Tuesday, the defense all but officially rested its case. The doctor's attorney asked permission to call other witnesses "if I think of any."

Because two of the state's rebuttal witnesses haven't arrived from out of town, the case was continued until 9:30 a.m. Thursday. It is expected to go to the jury early next week.

PHILADELPHIA (AP)—A five-alarm fire destroyed the three-story Manufacturer's Chemical Co. in North Philadelphia Tuesday.

Two-hundred firemen fought the blaze for an hour before bringing it under control. A series of explosions and a broken water main hindered them.

Traffic on the Reading Railroad main line into the Reading Terminal was curtailed when firemen stretched hoses across the tracks which run past the plant.

The testimony was made public Tuesday.

Louis originally owed \$545,000 in taxes on his earnings. Interest has brought the amount to more than 1¼ million dollars.

Latham told Congress: "We have gotten all we could possibly get from Mr. Louis, leaving him with some hope that he can live. He cannot make any large amount of money. His earning days are over. We did not get by any manner of means what he owed us."
